

Why Choose EasyWorld Software?

Mission Statement

Our mission is to be the premiere provider of mission-critical business and accounting software and services to companies in North America delivering personalized solutions meeting the unique and individualized needs of our customers providing unparalleled attention to our clients changing needs and challenges.

Company Stability: In this world of ever increasing mergers, acquisitions, accounting scandals and bankruptcies of multi-billion dollar companies, you can feel safe with EasyWorld Software. We are a closely managed company with high ethics and a sole purpose of delivering the best possible software meeting our clients ever changing business needs. We will not be sold and we will not merge! You can rely on us now and for many years to come!

Ease of Use: Ease of Use is a characteristic of EasyWorld Software which enables businesses and their entire staff to enjoy the benefits of a comprehensive accounting software system. The EasyWorld Software screens are customizable to allow different users to use different screens for many functions such as Quotes, Order Entry, Purchasing, etc. The EasyWorld Software main menu can be customized and different users can have different main menus to access features they have been granted access to.

Unparalleled Customization and Support Services: Our clients enjoy unparalleled customization and support services to meet their ever changing needs as they are encountering them. Clients are encouraged to make requests for features to be added to EasyWorld Software and are given timelines for the requested features to be added.

Fixed Cost for Software, Support, Upgrades, Training and Customization Services: Software is sold on a monthly use basis, with updates available monthly, quarterly and annually*.

Software Updated to Current Version Monthly, Quarterly and Annually: Your software will be kept at the current version along with all of the features your company has requested, requests made by other EasyWorld Software clients, and added features during regular upgrades.

Flexible User Security: EasyWorld Software provides a great deal of control over what users are able to do and what areas of the software users can access. EasyWorld Software has over 30 modules or areas such as Accounts Payable, Accounts Receivable, Inventory, General Ledger, Order Entry, etc. with each module providing user access security. Each module or area has 4 sub-modules; Data Entry, Reports, Setup, and Supervisor with each sub-module providing additional user access separately. On top of this, EasyWorld Software provides for Add New, Edit, Delete, Approve and Post rights for the Data Entry and Setup sub-modules of each of the 30+ modules providing you a high level of control for user access and rights.

Multiple Main Menus: EasyWorld Software provides a great deal of flexibility regarding how users access EasyWorld Software. You may configure different users to access EasyWorld Software each through different main menus.

Multiple Form Versions: EasyWorld Software provides a great deal of flexibility regarding how users screen appear in the software. You may configure different users to access EasyWorld Software each through different form versions ranging from simple to complex forms.

Not Hosted Software: Software runs at your site with all data stored at your site.

EasyWorld runs on EasyWorld Software! We run our business on our own EasyWorld Software which gives us a competitive advantage over our competitors.

Software and Services Quality: Many years ago we made a basic decision about quality and price. We decided that it would be easier to explain price one time than to apologize for quality forever. We bet you're glad we made that decision, aren't you?

We appreciate your consideration of EasyWorld Software!

*Monthly payments may be adjusted according to the Consumer Price Index annually.
